

PROFESSIONAL PROFILE

Third-year Software Engineering student at Manchester Metropolitan University with experience developing software using Java, Python, JavaScript and TypeScript. Interested in building practical applications and continuing to develop my technical skills.

TECHNICAL SKILLS

Java • Python • JavaScript • TypeScript • SQL • React • Spring Boot • Django • FastAPI • Node.js • Express.js • Vue.js • Tailwind CSS • PostgreSQL • Git • GitHub • Docker • AWS

TECHNICAL PROJECTS

[View Portfolio](#)

Save Tears UK

Tech: Python • FastAPI • Vue.js • SQLite • ThingSpeak

Smart Water & Greywater Monitoring Platform

[Live Website](#)

- Developed features for a full-stack web application using FastAPI and Vue.js.
- Integrated and visualised sensor data from ThingSpeak within an interactive dashboard.
- Troubleshoot deployment, authentication and API integration issues throughout development.
- Collaborated with multidisciplinary teams to develop and deliver technical solutions within an international sustainability project.

ARTWITHAMANDA

Tech: Django • Python • PostgreSQL • AWS S3 • Stripe • Bootstrap

Full-Stack E-commerce Website

[Live Website](#)

- Designed and developed a full-stack e-commerce website.
- Implemented secure user authentication and Stripe payment integration.
- Managed media storage using AWS S3.
- Migrated and redeployed the application to a modern cloud hosting environment.
- Diagnosed and resolved deployment, configuration and migration issues while redeploying the application to a modern cloud hosting environment.

Java Board Game Application

Tech: Java • Spring Boot • OOP

Based on Snakes and Ladders

- Designed and developed a configurable Java board game application based on the mechanics of Snakes and Ladders.
- Implemented a configurable and maintainable architecture using factory classes to support multiple board layouts and gameplay variations.
- Applied object-oriented programming principles and Spring Boot to develop reusable and extensible game components.
- Achieved 91% in the Software Design & Architecture module.

PROFESSIONAL EXPERIENCE

Web Developer Intern

2 Toucans Digital Agency

2024 - 2025

- Developed and maintained client websites using Drupal.
- Implemented new website features and resolved technical issues to improve functionality.
- Worked with Git and Docker as part of the development workflow.
- Contributed to testing and improving the user experience.

International Multidisciplinary Project (JEI Programme)

Manchester Metropolitan University & Hubei University

Feb 2026 - Jul 2026

- Selected to participate in a funded international collaboration between Manchester Metropolitan University and Hubei University, culminating in a one-month study abroad programme in Wuhan, China.
- Collaborated with multidisciplinary teams across software engineering, electrical and electronic engineering and chemistry to develop an innovative solution addressing sustainable water management.
- Contributed throughout the project lifecycle, including planning, software development, testing and final presentation.
- Worked effectively within an international team, strengthening communication, teamwork and cross-cultural collaboration skills.
- Presented the completed project and technical solution to academic staff.

Customer Service Assistant	Wingates Fish and Chips	2025 - 2026
-----------------------------------	--------------------------------	--------------------

- Delivered friendly and efficient customer service in a fast-paced environment.
- Handled customer enquiries and resolved issues professionally.
- Processed cash and card payments accurately.
- Worked collaboratively with colleagues to maintain efficient service during busy periods.

Community Short Breaks Worker	Action for Children	2022 - 2025
--------------------------------------	----------------------------	--------------------

- Provided support to children, young people and families in a safe, inclusive environment.
- Built positive relationships with children, families and colleagues through effective communication.
- Worked collaboratively as part of a team while following safeguarding procedures.

Maths & Science Tutor	Total Tuition	2021 - 2022
----------------------------------	----------------------	--------------------

- Delivered one-to-one tuition tailored to individual learning needs.
- Explained complex concepts clearly, helping students build confidence and improve understanding.
- Planned lessons and monitored student progress.

EDUCATION

BSc Software Engineering	Manchester Metropolitan University	Sept 2025 - Present
---------------------------------	---	----------------------------

- Transferred into Year 2 following successful completion of Year 1 at Edge Hill University.
- Relevant Modules: System Design & Architecture (91%), Advanced Programming (Java), Full-Stack Development, Software Engineering.

BSc Software Engineering (Year 1)	Edge Hill University	Sept 2024 – Jul 2025
--	-----------------------------	-----------------------------

- Achieved 94% in Foundations of Computer Science

CERTIFICATIONS

Level 5 Diploma in Web Application Development (Merit)	Code Institute
---	-----------------------

Microsoft Office Specialist: Word Associate	Edge Hill University
--	-----------------------------

Google AI Opportunity Fund	Manchester Metropolitan University
-----------------------------------	---
